As a freshman, have you declared business as your major? Already a business major with a GPA of 3.50 or higher? You can pursue your undergraduate and MBA degrees — earning both in as little as five years.

Once accepted into the BA/MBA Program, you can simultaneously earn credits toward an undergraduate degree, while also taking graduate-level MBA courses. This option can save you time and money — and fast-track your completion of the MBA Program.

To enroll in the BA/MBA Program, please speak with your admissions counselor (if you're a high school senior) or your DeVille School of Business faculty advisor (if you're already a business major).
